Safety Warnings

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This 'bolt of lightning' indicates uninsulated material within your unit which may cause an electric shock. For the safety of everyone in your household, please do not remove product covering.

The 'exclamation mark' calls attention to features within the enclosed literature to prevent operating and maintenance problems.

This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

WARNING: To reduce the risk of fire or electric shock, this apparatus should not be exposed to rain / moisture or placed in the vicinity of objects filled with liquids (such as vases).

CAUTION: To prevent electric shock, fully insert the plug. For regions with polarized plugs: Please match wide blade to wide slot.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.

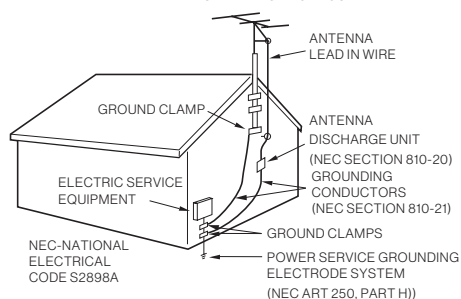

7. Do not block any of the ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as if the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, or when the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Apparatus should not be exposed to dripping or splashing, and objects filled with liquids, such as vases, should not be placed on the apparatus.

Safety Warnings

16. An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to eliminate touching power lines or circuits as contact might be fatal.
17. Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
18. Never push objects of any kind into this product through openings as they may touch short-out parts or dangerous voltage points that could result in a fire or electric shock. Never spill liquid of any kind on the product.
19. If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrodes.

EXAMPLE OF ANTENNA GROUNDING AS PER THE NATIONAL ELECTRICAL CODE

20. NOTE TO CABLE/TV INSTALLER: This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.
21. When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer or those that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.
22. Upon completion of any service or repairs to this unit, ask the service technician to perform safety checks to determine that the unit is in proper operating condition.
23. When you connect the product to other equipment, turn off the power and unplug from the wall outlet. Failure to do so may cause an electric shock and serious personal injury. Read the owner's manual of the other equipment carefully and follow the instructions when making any connections.
24. Sudden high volume may cause hearing or speaker damage. When you use headphones (if the unit is equipped with a headphone jack), keep the volume at a moderate level. If you use headphones continuously with high volume, you may suffer hearing damage.
25. Any severe physical impact on the product may cause certain components to fallout of place within and break, which may cause fire or electric shock. In such event, do not operate the product. Contact the manufacturer for support.
26. In case of product malfunction or unusual events such as electrical burning smell, smoke, or loss of content signals on built-in Soundbar due to internal overheating,

Safety Warnings

immediately turn off and unplug the power and contact the manufacturer.

27. Do not mount this product near a motor or transformer where strong magnetism is generated.
28. Do not allow the product to output distorted sound for extended periods of time. This may cause speaker overheating and fire.
29. The socket-outlet must be installed near the unit and easily accessible.
30. The mains plug is used as the disconnect and shall remain readily operable.
31. Batteries (battery pack or installed batteries) should not be exposed to excessive heat such as direct sunlight, fire or other heat sources.

CONDENSATION

Moisture will form in the operating section of the unit if the unit is brought from cool surroundings into a warm room or if the temperature of the room rises suddenly. When this happens the unit's performance will be impaired. To prevent this, let the unit stand in its new surroundings for about an hour before switching on, or make sure the room temperature rises gradually.

Condensation may also form during the summer if the unit is exposed to the breeze from an air conditioner. In such cases, change the location of the unit.

HOW TO HANDLE THE LED PANEL

- Do not press hard or jolt the LED panel. It may cause the LED panel glass to break and injury may occur.
- If the LED panel is broken, make absolutely sure you do not touch the liquid in the panel. This may cause skin inflammation.
- If the liquid gets in your mouth, immediately rinse and consult with your doctor. Also, if the liquid gets in your eyes or touches your skin, consult your doctor after rinsing for at least 15 minutes in clean water.

Possible Adverse Effects on LED Panel:

If a fixed (non-moving) pattern remains on the LED panel for long periods of time, the image can become permanently engrained and cause subtle but permanent ghost images. This type of damage is NOT COVERED BY YOUR WARRANTY. Never leave your LED panel on for long periods of time while it is displaying the following formats or images:

- Fixed images, such as stock tickers, video game patterns, TV station logos and websites.
- Special formats that do not use the entire screen. For example, viewing letterbox style (16:9) media on a normal (4:3) display (black bars at top and bottom of screen); or viewing normal style (4:3) media on a wide screen (16:9) display (black bars on left and right sides of screen).

The following symptoms are not signs of malfunction but technical limitation. Therefore we disclaim any responsibility for these symptoms.

- LED panels are manufactured using an extremely high level of precision technology, however sometimes parts of the screen may be missing picture elements or have luminous spots. This is not a sign of a malfunction.
- Do not install the LED panel near electronic equipment that produces electromagnetic waves. Some equipment placed too close to LED may cause interference.
- Effect on infrared devices – there may be interference while using infrared devices such as infrared cordless headphones.

POWER SOURCE

NOTE: Please make sure to insert the cord securely at both the Furrion Sense™ TV and 12V outlet.

Safety Warnings

WARNING:

- Do not connect this unit to the power using any device other than the supplied 12V cigarette adapter. Or else it may cause fire, electric shock, or damage.
- Do not use with a voltage other than the power voltage specified. Or else it may cause fire, electric shock, or damage.
- This product is used on RVs under the RVIA code. These RVs contain fuses required by RVIA. And, this product has been tested by LANSON AFM15 fuse.

CAUTION:

- When the unit is not being used for extended periods of time (e.g., away on a trip), in the interest of safety, be sure to unplug it from the outlet.
- Do not plug/unplug the 12V cigarette adapter (included) or AC power adapter (not included) when your hands are wet. Doing this may cause electric shock.
- If you need to replace the supplied 12V cigarette adapter or purchase a AC power adapter (not included), the specified one is recommended. Contact your dealer to purchase a factory replacement.

Compliance

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television

reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment under FCC Rules.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Safety Warnings

Safety Precautions

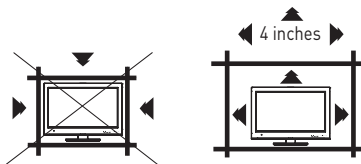

WARNING: Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television set.
- Only using furniture that can safely support the television set.
- Ensuring the television set is not overhanging the edge of the supporting furniture.
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

The unit emits heat when in operation. Do not place any covers or blankets on the unit, this may cause overheating. Do not block

ventilation holes, or set up near radiators. Do not place in direct sunlight. When placing on a shelf, leave 4 inches (10 cm) free space around the entire unit.

Notes when mounting the LED TV on the wall

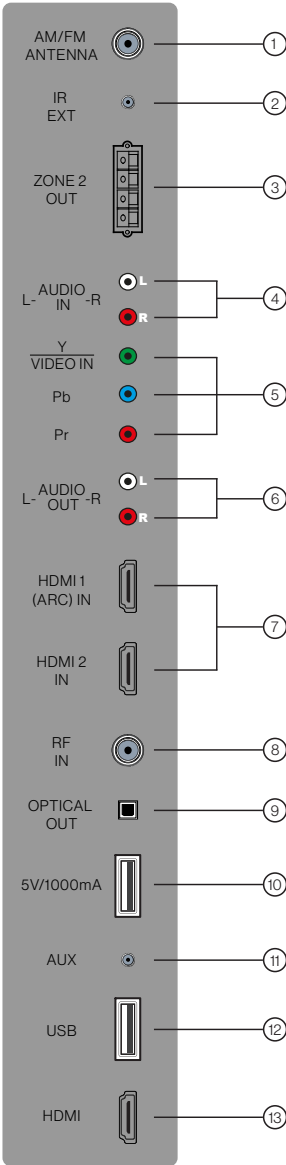

If the unit is to be mounted on the wall, contact the retailer where you purchased the LED TV for advice, and have the equipment professionally installed. Incomplete or improper installation may cause injury to you and/or damage to the LED TV.

WARNING:

- Do not use this TV with wall mounts that allow the TV to tilt vertically. Vertical tilting wall mounts may cause structural damage to the TV.
- Use ONLY fixed or horizontal swiveling wall mounts with this TV.

Function Overview

Input & Output ports

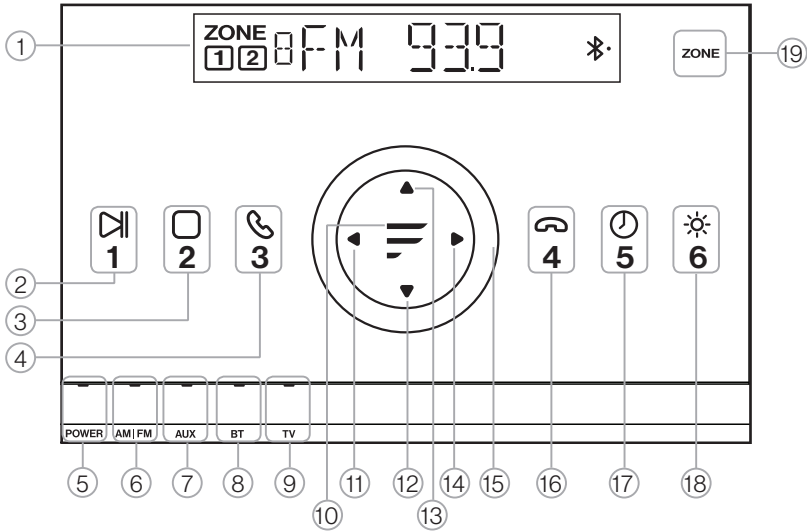

Item	Input/Output	Function
①	AM/FM ANTENNA	Connect to the AM/FM antenna.
②	IR EXT	Connect to the IR EXT port of another Furrion Sense™ TV.
③	ZONE 2 OUT	Connect to Zone 2 Speaker.
④	L-AUDIO IN-R	Connect to the COMPOSITE AUDIO OUT ports of a DVD Player, Cable Box or other compatible devices.
⑤	Y VIDEO IN	Connect to the COMPONENT VIDEO OUT ports of a DVD Player, Cable Box or other compatible devices.
	Pb	
	Pr	
⑥	L-AUDIO OUT-R	Connect to the AUDIO IN ports of an audio device.
⑦	HDMI 1 (ARC) IN	Connect to the HDMI OUT port of a DVD Player, Games Console, Cable Box or other HDMI device. • ARC (Audio Return Channel) When connected with a HDMI 1.4 cable to an ARC compatible audio system, the TV links with the device to give extra audio functionality.
	HDMI 2 IN	
⑧	RF IN	Connect to TV ANTENNA, CABLE, or CABLE BOX.
⑨	OPTICAL OUT	Connect to the OPTICAL AUDIO IN port of an audio device.
⑩	USB (5V/1000mA)	Rear USB Port: Provide power supply only for Google dongle / Roku etc.
⑪	AUX	Front Aux In port: Connect to the 3.5mm audio output socket on an auxiliary device.
⑫	USB	Front USB port: Connect a USB storage device.
⑬	HDMI	Front HDMI In port: Connect to the HDMI output socket on an AV device.

* The configuration of the connection ports may vary from model to model.

About Your TV

Features

TV with integrated Soundbar system -

You can operate the TV from the sources of HDMI, DTV/ATV, USB (audio & pictures only) or CVBS with the decoded audio being present on the build-in speakers (stereo); You can enjoy the audio sources of AM/FM, Bluetooth or Line-in even when the TV screen is turned off.

Speaker drivers mounted with a suspension system and facing towards the user - This will reduce vibrations / acoustic feedback to ensure the high quality sound.

Front-facing control buttons and LCD on the bottom of the TV panel - It allows to press the keys easily from the front for basic operation. The LCD displays the source mode and basic information

Front USB in/ HDMI in/ Aux in port - It allows to connect with an external USB device / AV device / Auxiliary device from the front of the TV.

Power Source

NOTE:

- Please make sure to insert the cord securely at both the LED TV and the wall outlet.

WARNING:

- DO NOT CONNECT THIS UNIT TO THE POWER USING ANY DEVICE OTHER THAN THE SUPPLIED 12V CIGARETTE ADAPTER. DOING SO MAY CAUSE FIRE, ELECTRIC SHOCK, OR DAMAGE.
- DO NOT USE WITH A VOLTAGE OTHER THAN THE POWER VOLTAGE SPECIFIED. DOING SO MAY CAUSE FIRE, ELECTRIC SHOCK, OR DAMAGE.

CAUTION:

- WHEN THE UNIT IS NOT BEING USED FOR EXTENDED PERIODS OF TIME (E.G., AWAY ON A TRIP), IN THE INTEREST OF SAFETY, BE SURE TO UNPLUG IT FROM THE OUTLET.
- DO NOT PLUG/UNPLUG THE 12V CIGARETTE ADAPTER (INCLUDED) OR AC POWER ADAPTER (EXCLUDED) WHEN YOUR HANDS ARE WET. DOING SO MAY CAUSE ELECTRIC SHOCK.
- IF YOU NEED TO REPLACE THE SUPPLIED 12V CIGARETTE ADAPTER OR AC POWER ADAPTER (EXCLUDED), THE SPECIFIED ONE IS RECOMMENDED. CONTACT YOUR DEALER TO PURCHASE A FACTORY REPLACEMENT.

Before Operation

English

What's in the box

Thanks for purchasing this Furrion Sense™ HD LED TV. This manual will help you set up and begin using your TV.

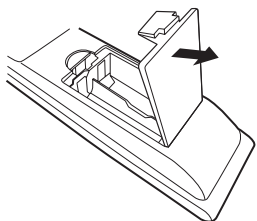

First, check the contents of your box with the parts checklist below:

- TV
 - Remote control
 - AAA battery × 2
 - Wall-mount screws
 - Quick Start Guide
 - Warranty Manual
 - Warning Card
- Now you can get started!

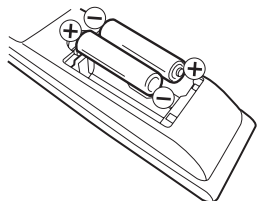

Prepare your Remote Control

BATTERY INSTALLATION

1. Open battery compartment cover.

2. Install two AAA batteries.

3. Close the cover of the battery compartment.

NOTE: Use two “AAA” size batteries. The batteries may last approximately one year depending on usage. For best performance, it is recommended the batteries should be replaced on a yearly basis, or when the remote operation becomes erratic. Do not mix old and new batteries or different types.

BATTERY PRECAUTIONS

These precautions should be followed when using batteries in this device:

- Use only the size and type of batteries specified.
- Be sure to follow the correct polarity when installing the batteries as indicated in the battery compartment. Reversed batteries may cause damage to the device.
- Do not mix different types of batteries together (e.g. Alkaline and Carbon-zinc) or old batteries with fresh ones.
- If the device is not to be used for a long period of time, remove the batteries to prevent damage or injury from possible battery leakage.
- Do not try to recharge batteries not intended to be recharged; they can overheat and rupture. (Follow battery manufacturer's directions.)
- Please use caution when inserting batteries to avoid battery damage. If the spring terminal in the remote control remains in contact with a side of a damaged battery it can cause a short circuit. Never use damaged batteries as they can become very hot and are dangerous.

Getting Started

The **Setup Wizard** window appears the first time you turned on the TV. It will assist you to configure the TV and scan for available channels.

IMPORTANT: Make sure the antenna is correctly connected with the cables of TV system.

1. Press the button  on the remote control (or press **POWER** button at the bottom of TV front panel) to turn on the TV. The **Setup Wizard** window appears on the screen.

NOTE: It may take a few seconds before the **Setup Wizard** window appears on the screen.

2. Use  or  on the remote control to highlight **TV Location**, then press  or  to select **Home Mode** or **Store Mode**.

NOTE: When you select **Store Mode** it will remind you that **Store Mode** consumes more energy. Select **Yes** to enter or **No** to cancel.

Press  or  to highlight **Go to next step**, press **OK** or  to go to the next step.

USB Mode

1. After connecting a USB storage device to front USB port, press  button on the remote control and select **USB** as the input source. Press **OK** or **▶** to enter.
2. Use **◀** or **▶** to select **Photo** or **Music**. Press **OK** or **▶** to confirm the selection.
3. Use **▲** or **▼** to navigate the files or folders stored on a USB device.
4. Press **MENU** to return to the previous menu or press **EXIT** at any time to exit the setting.

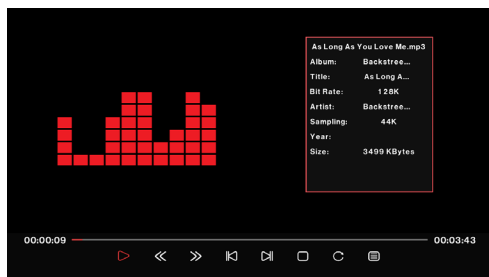

For photos, you can use the tools on the photo viewer to control slide show, view photos and show file information.

* The photo viewer supports the JPG format files.

For music, you can use the tools of the music player to control playback and display file information.

* The music player supports the MP3 audio format files.

Soundbar Operation

* The built-in Soundbar could be operated separately even when the TV is turned off.

General Operation	
Power On/ Off	Press POWER button at the bottom of the TV front panel or  button on the remote control to turn on/off the whole unit. When the whole unit is powered on, ZONE 1 is on while ZONE 2 is off by default.
MUTE	Press briefly to mute or unmute the current zone. Press and hold it to mute or unmute both zones.
Select a Source	Press the button AM/FM , AUX , BT or TV at the bottom of front panel to select Radio, AUX, BT or TV source.
Adjust Volume	Rotate Volume Knob on the front panel to adjust volume.
Select Audio Feature	Press SEL on the remote control to select VOL, BAS (without EQ preset), TRE (without EQ preset) or BAL. Rotate Volume Knob on the front panel to adjust audio feature.
Preset EQ	Press EQ button on the remote control to select the sound mode MUSIC or MOVIE.
Select Speakers	ZONE 1 represents built-in speakers of the TV, which will be activated by default when the TV is turned on. Press ZONE 2 on the remote control or the front panel to select or turn on/off ZONE 1/ZONE 2. The corresponding zone number will appear on the front panel LCD once it is selected.
Reset	Enter TV main menu " Setup " in TV mode. Select " Restore Default " to reset both the TV and Soundbar to factory defaults. Then TV and Soundbar enter standby mode.
IR-EXT	Press IR-EXT on the remote control, then you can use the remote control to control another TV connected through an IR-EXT cable. The IR-EXT icon will flash on the front panel LCD.

Radio Operation	
Select Radio Region	Press and hold AM/FM to select the radio region USA1, USA2, EUROPE or AUSTRALIA.
Manual Tuning	Press ◀ or ▶ button on the front panel to move radio frequency down or up one step at a time.
Automatic Tuning	Press and hold ◀ or ▶ button to search for the next strongest station automatically.
Select Band	Press AM/FM button on the front panel to move radio frequency down or up one step at a time.
Store and Recall Preset Station	Press and hold any one of the six preset buttons (1-6) on the front panel to store the current frequency. Press the corresponding preset button again to recall the frequency stored.
Store Stations Automatically	Press and hold APS button on the remote control to automatically store the six strongest stations in the current band. (Up to 18 FM stations and 12 AM stations can be stored.)
Scan Tuning	Press APS button on the remote control to scan preset station 1-6 in the current band.
LOC	Press LOC on the remote control repeatedly to set the LOC ON or LOC OFF.
Stereo/Mono	In FM mode, press ST button on the remote control to select ST ON or ST OFF.

Soundbar Operation

USB Operation

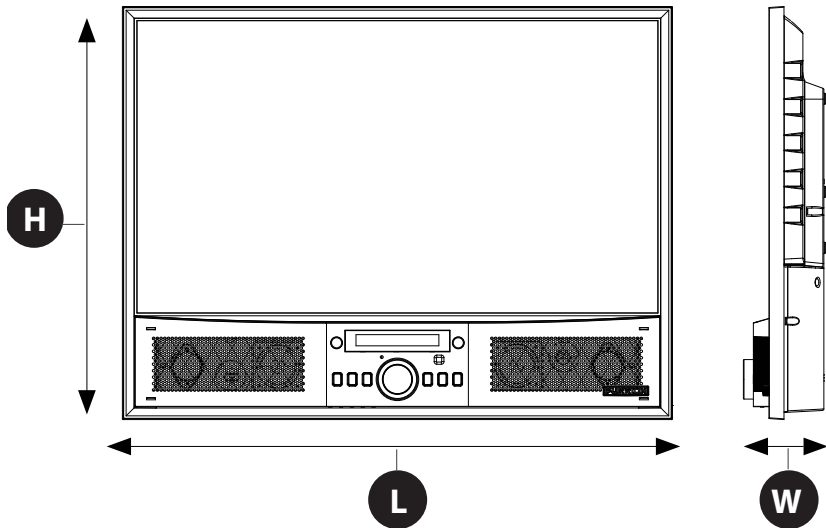

Backward and Fast Forward	Press « or » button on the remote control to fast forward or backwards.
Pause Playback	Press  on the front panel to temporarily stop playback. Press  again to resume playback.
Stop Playback	Press  on the front panel or  on the remote control to stop playback, then press OK on the remote control to start playback from the beginning of the first chapter/track.
Repeat	During playback, select the repeat icon from the player tools on screen bottom and set Repeat 1, Repeat ALL or Repeat NONE.

Bluetooth Operation

Connect or Disconnect BT	Press the button BT on the bottom of front panel to automatically connect with the last paired device. (BT name: Furrion Sense 32" TV) Press and hold the button BT on the bottom of front panel for 6 seconds to disconnect bluetooth and clear the pairing information.
Dial or accept call	Press the button  on the front panel to accept an incoming call or dial out the last called number directly.
Reject or End call	Press the button  on the front panel to reject or end a call. Press  to reject or end a call.
