LIVE. LANCE. LIFE.

Because the path before you has yet to be traveled. It smells of fresh air, pine trees and an open fire. It leads to a place characterized less by how you got there and more by moments shared and the memories made.

Has been treading that path for over 50 years with an unparalleled dedication to quality and attention to detail. Privately owned and forged from humble Southern California roots; our journey begins with an industry leading CNC computer designed and cut manufacturing process, complemented by a devotion to utilizing only the most advanced supplies and materials.

Is about searching out all this world has to offer. It can lead you to mountaintops, desert plains or coastal shores. It's about not settling at a desk in a town surrounded by concrete, or settling for the constraints of city lights. ...Don't Settle.

QUALITY

A strong yet lightweight frame structure designed with LanceLock interlocking aircraft-grade aluminum extrusion establishes a solid foundation. Add TPO front caps, composite laminated walls, imported Lite-Ply cabinetry and stainless steel hardware to pull it all together. Lance's quality is truly the result of the sum of its parts.

COMPOSITE CONSTRUCTION

The infusion of durability and ultra-lightweight. Precisely sourced and implemented components meticulously arranged to form one of the best selling most structurally sound and well insulated RVs on the road.

HIGH TECH DESIGN

The precise design begins with Solidworks digital mapping software, implemented by industry leading use of computer numerical code (CNC) machines. This computer guided process ensures your unit's floor plan is not only functional but also strong and ready for a long life on the road ahead.

FOUR SEASONS

Utilize your truck camper all year long remaining comfortable in extreme heat or cold temperatures with the Lance Four Seasons Certified option that includes along with standard dual pane windows, block foam insulation and advanced ducted heating: water heater bypass and winterizing valve, insulated hatch covers and bed mat, insulated battery and LP compartments and heated and insulated holding tanks. (N/A 650)

THE ADVANTAGES OF TRUCK CAMPER OWNERSHIP

UNMATCHED VERSATILITY

Often referred to as the most versatile RV on the market, the ability to go anywhere a pick-up truck can go and to tow just about anything are key reasons people love Lance truck campers. Additionally, the ability to unload your Lance camper and use your pick-up truck independently while camping and even as your daily commuter are fantastic benefits.

SUPERIOR MANEUVERABILITY

Maneuverability is best in class due to the more manageable size and smaller turning radius of the pick-up truck vs. larger RVs. A Lance truck camper will greatly increase your ability to explore on or off the road. Allowing more possible camping locations and traditional parking spots in town.

EASY TO DRIVE

Due to the ease and familiarity of driving a pick-up truck, many people who do not enjoy driving larger RVs, find Lance truck campers less stressful and a pleasure to operate.

OUTSTANDING OFF-ROAD CAPABILITY

When combining the off-road capability of a pick-up truck, especially a 4x4, with a Lance Campers compact size and options such as solar power and onboard generator, “boon-docking” and “Overlanding” may become common phrases for you!

EXCELLENT RESALE VALUE

The versatile Lance truck camper has a history of holding a greater portion of its retail value than both its competitors and other types of RVs. Due to superior quality, properly cared for Lance truck campers are highly sought after, giving you more options when its time to look for your next new model.

“WOW, I HAD NO IDEA!”

Is what you often hear when someone steps into a Lance truck camper for the first time. Need a dry bath? No problem! Looking for a microwave and air conditioning? Of course! How about a flat screen TV, bluetooth enabled stereo and solar power? Our pleasure!

MODEL 650

MODEL 855S SHOWN IN ROADSTER

THE LANCE LOOK

Every Lance owner is unique, just like each of our decor packages. Personalize your Lance by selecting from one of three tasteful interiors, assembled by an interior design team. Form meets function and your personal style in the refined Roadster, laid-back Passage and edgy Midnight fabric combinations. Featuring stainless steel appliances; beautiful wood cabinetry complete with residential hardware, spacious sinks and and easy to clean flooring.

DEALER INSTALLED SUPPORT EQUIPMENT

1. Torklift SuperHitch Extension System
increases your trucks towing capabilities

**2. Wireless Rear-View Camera/
Microphone and In-Cab LCD Monitor**
lets you see – and hear – what's behind you

**3. Frame-Mount Anchoring System and
Front-Mounted Centering Guides** assist
center alignment in the truck bed

**4. Qwik-Load™ Front and Rear
Turnbuckles** safely and securely attach
and anchor the camper to your truck

5. Hellwig Big Wig Air Springs provide
better handling and control under heavily
loaded conditions

6. Upgraded Shocks by Bilstein or Rancho
can greatly improve ride in all weather and
road conditions

7. Air-Lift In Cab Remote Control
of air compressor and pressure for
the air springs ("air bags")

8. Lance Custom Design Cab-Over Struts
reduce the impact of up-and-down motion
from irregular roads

9. Rear-Mounted Centering Guides assist in
positioning your camper within the truck bed,
and are available for most truck models

10. Hellwig Sway Bars reduce body roll
providing better vehicle control

YOU HAVE A CHOICE OF TIE-DOWN SYSTEMS

DESIGN AND CONSTRUCTION

A. The slick, high gloss fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.

B. The roof is made of energy-star rated Polyvinyl Chloride (PVC) material with vents that clamp into place eliminating screws and potential leaks. Integrated rain gutters and drip spouts keep the sides of your camper cleaner and prevent streaking.

C. Interiors are constructed of Lite-Ply™ which Lance imports from Europe. This superior product is lighter, formaldehyde free and stronger providing both beauty and durability.

D. With an aluminum-framed superstructure, the entire camper fits together like a perfect puzzle. "LanceLock™" features interlocking aluminum extrusions to connect all exterior panels.

E. All seals use an anti-wicking material to prevent moisture from transferring into the laminate walls.

F. Lance uses more expensive Azdel™ in place of Luan wood virtually eliminating mold and mildew. It's also 50% lighter, formaldehyde free and has a better "R" value for superior insulation and sound absorption.

G. Rigid block foam insulation fits tight to resist sagging and promotes structural strength. Four Season package also features insulated bed pad.

H. Beautiful and aerodynamic, the nose cap is made of TPO, the same material used for bumpers on automobiles. Its high gloss finish is resilient and resistant to the abuses of the road. It's slick surface makes it easier to clean.

3D advanced CAD engineering create precise plans that run CNC machinery. The result is that every part is the same and perfect every time.

Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

KEY SUPPLIER PARTNERS

FIT & FINISH

The perfect balance of sensible luxury, classic style and rugged dependability. Offering floor plan choices with versatile appointments, outstanding comfort and unmatched quality in the details. Each model is meticulously designed to meet the common sense needs of different owners—including maximized storage and tank space with floor plans for a variety of truck sizes.

MODEL 1062 SHOWN IN ROADSTER

EXTERIOR STYLING

Iconic, yet always innovative: As the industry's benchmark, Lance Camper style has been forged by over 50 years of demonstrated reliability from the frozen roads of Alaska to the ruts and river crossings of South America. The proof is in the pedigree from our one-piece molded TPO Nose Cap to our exclusive ultraDECKplus bumper.

TRUCK/CAMPER COMPATIBILITY GUIDE

These are general guidelines to use when matching a Lance camper to your truck and assumes standard equipment on both the truck and camper. Whether any camper can be used with your truck is dependent on your truck configuration (2WD vs. 4WD, standard cab vs. extended cab, etc.) and its capacities for carrying and /or towing – how much optional equipment is added to the camper – what you tow – and the weight of passengers and all other items you carry in your truck and camper. Because we're unfamiliar with your specific truck and how you intend to use it, Lance makes no warranties or representation – express or implied – as to performance or reliability of your truck with a Lance camper. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in properly matching truck/camper rigs.

TOWING

When towing behind a larger camper, extending the hitch rearward is necessary. Lance recommends the Torklift SuperHitch receiver hitch and hitch box extension. It replaces standard truck factory receivers to allow for greater towing capacities.*

Follow the advice of your Factory Authorized Lance Dealer.

YOU'RE INVITED TO OUR HOUSE!

Now that you've seen the brochure, we invite you to visit our manufacturing facility. Take a trip to visit us in sunny southern California and see how we have been setting ourselves apart from the competition for 53 years. We realize that buying an RV is a big decision and that it takes time and research. That's why we open our doors to the public for informational-guided tours to see the "quality of precision" first hand. Visit our website to learn more and to schedule a visit soon!

2018 LANCE TRUCK CAMPER BROCHURE ©2018 Lance Camper Mfg. Corp. (LCMC). All rights reserved. Lance, the Lance logomark, the Lance logomark with chevron, The Lance Look, Lance Custom Design, Bed-Maid, LanceLock, ultraDECKplus, ultraSTEPplus [patent pending], Discover The Lance Difference, SkyView, Lance Load, Lance Life, LIVE. LANCE. LIFE., REV Group® and other exclusive Lance product names, marks or designations are trademarks, service marks or registered trademarks of LCMC. All other marks are property of their respective owners. All product data, graphics and photography, illustrations and/or renderings in this book were as accurate as possible at press time. Subsequent refinements during the model year may be evident in the actual product. LCMC reserves the right to change prices, colors, materials, equipment and specifications without notice — as well as to add, modify or discontinue models shown in promotion materials and/or on its websites. All weights, fuel and liquid capacities are approximate and dimensions are nominal. It is that owner's sole responsibility to select the proper Lance camper model and support equipment appropriate to their truck without exceeding safe weight operating capacities. Your Factory Authorized Lance Dealer can advise you of the operating parameters for your particular configuration, and can confirm prices and product specifications material prior to making your purchase decision. See website for full warranty information. Overall Length is measured from front cap to rear bumper (excludes accessories). Excludes safety equipment and awnings. Actual propane capacity is 80% of water listing as required by the safety code. Brochure printed in the USA on FSM paper. 40M. 01/18. Rev2.
