LIVE. LANCE. LIFE.

Because the path before you has yet to be traveled. It smells of fresh air, pine trees and an open fire. It leads to a place characterized less by how you got there and more by moments shared and the memories made.

Has been treading that path for over 50 years with an unparalleled dedication to quality and attention to detail. Privately owned and forged from humble Southern California roots; our journey begins with an industry leading CNC computer designed and cut manufacturing process, complemented by a devotion to utilizing only the most advanced supplies and materials.

Is about searching out all this world has to offer. It can lead you to mountaintops, desert plains or coastal shores. It's about not settling at a desk in a town surrounded by concrete, or settling for the constraints of city lights. ...Don't Settle.

QUALITY

A strong yet lightweight frame structure designed with LanceLock interlocking aircraft-grade aluminum extrusion establishes a solid foundation. Add TPO front caps, composite laminated walls, imported Lite-Ply cabinetry and stainless steel hardware to pull it all together. Lance's quality is truly the result of the sum of its parts.

COMPOSITE CONSTRUCTION

The infusion of durability and ultra-lightweight. Precisely sourced and implemented components meticulously arranged to form one of the best selling most structurally sound and well insulated RVs on the road.

HIGH TECH DESIGN

The precise design begins with Solidworks digital mapping software, implemented by industry leading use of computer numerical code (CNC) machines. This computer guided process ensures your unit's floor plan is not only functional but also strong and ready for a long life on the road ahead.

FOUR SEASONS

Utilize your travel trailer all year long remaining comfortable in extreme heat or cold temperatures with the Lance Four Seasons Certified option that includes along with standard dual pane windows and advanced ducted heating: water heater bypass and winterizing valve, insulated hatch covers and heated holding tanks. (N/A 1475 & 1575)

THE LANCE LOOK

No two Lance owners are alike and neither are our residentially influenced decor packages. Personalize your Lance by selecting from one of three tasteful interiors, assembled by an interior design team. Form meets function and your personal style in the refined Roadster, laid-back Passage and edgy Midnight fabric combinations. Featuring stainless appliances; beautiful wood cabinetry complete with residential hardware, spacious sinks and easy to clean flooring.

LANCE ULTRA-LIGHT EDITIONS

MODEL 1475 (Shown w/Available Sofa Slide)

Introducing the New-Look Ultra-Lights. Composite construction melds the worlds of durability and reliability that won't weigh you down. For the past 10 years our lightest weight models have set themselves apart in quality, function and towability and now they are turning heads in style- featuring euro inspired graphics and sleek aerodynamic lines. The new look 1475 & 1575 models offer a stylish option to the owners of smaller SUV and compact truck tow vehicles.

MODEL 1575 (Shown in Roadster)

Convertible Dinette Bed		46" x 78"	54" x 78"	42" x 78"					

*Estimates

**When looking at cargo capacity you must consider the hitch weight of the trailer and axle capacity. Hitch weight is actually being hauled while the remaining Trailer weight on the axle(s) is being towed. Example if a trailer has a total weight of 4000 pounds with a 400 pound hitch weight that would mean 3600 pounds is on the axle(s). If the axle weight rating is 5200 for this unit you will have 1600 of axle capacity for cargo.

DESIGN AND CONSTRUCTION

A. The roof is made of energy-star rated Polyvinyl Chloride (PVC) material with vents that clamp in place, eliminating screws and potential leaks. Integrated rain gutters and drip spouts prevent the sides of your trailer from streaking. (N/A 1475 & 1575)

B. Rigid block foam insulation yields maximum "R" value and promotes structural strength.

C. Interiors are constructed of Lite-Ply™ which Lance imports from Europe. This superior product is lighter, formaldehyde free and stronger. Providing both beauty and durability.

D. Keeping it all together are stainless steel fasteners. Unlike our competitors, this expensive hardware resists corrosion making for a lasting investment.

E. High gloss TPO lower front gravel guard with jewel LED lighting is both beautiful and resilient to the abuses of the road while protecting this section of the chassis.

F. All seals use an anti-wicking material to prevent moisture from transferring to the laminate walls.

G. Lance uses more expensive Azdel™ in place of Luan wood, virtually eliminating mold and mildew. It's also lighter, carcinogen and formaldehyde free and has better "R" value for superior insulation.

H. Lance's aluminum framed superstructure provides for an extremely solid trailer that is also lightweight.

I. Heavy duty rubber torsion-bar suspension axles allow for independent articulation, providing a better towing experience off-road in addition to featuring EZ-lube bearings and self adjusting brakes for easy maintenance.

J. Engineered super lightweight, powder coated, tempered steel custom chassis Huck bolt construction eliminates weak and rust-prone welds.

K. Slideout rooms feature smooth, dependable operation. Lighter in weight than other mechanisms, they're also smaller, allowing for more living space.

L. The slick, high gloss fiberglass exterior walls are laminated under intense pressure with heat-setting adhesives for years of trouble-free service.

3D advanced CAD engineering creates precise plans that run CNC machinery. The result is that every part is perfect every time.

KEY SUPPLIER PARTNERS

YOU'RE INVITED TO OUR HOUSE!

Now that you've seen the brochure; we invite you to visit our manufacturing facility. Take a trip to visit us in sunny southern California and see how we have been setting ourselves apart from the competition for 53 years. We realize that buying an RV is a big decision and that it takes time and research. That's why we open our doors to the public for informational-guided tours to see the "quality of precision" first hand. Visit our website to learn more and to schedule a visit soon!

It is the owner's sole responsibility to select the proper Lance model, tow vehicle and tow equipment for safe operation. Your Factory Authorized Lance Dealer can advise you of the operating parameters for your particular configuration, and can confirm prices and product specifications material prior to making your purchase decision. See website for full warranty information. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded RV. Axle Rating is the maximum permissible weight a specific axle is designed to carry. Overall length is measured from tip of the hitch to rear bumper (excludes accessories). Excludes safety equipment and awnings. Actual propane capacity is 80% of water listing as required by the safety code. Brochure printed in the USA on FSM paper. 40M. 01/18. Rev2.

TOWING & COMPATIBILITY

These are general guidelines to use when matching a trailer to your tow vehicle, assuming standard equipment on your trailer. Whether any travel trailer can be used with your vehicle and its capacities for carrying and/or towing is effected by how much optional equipment is added to the trailer, and the weight of passengers and all other items you carry in your tow vehicle and trailer.

To get an approximate weight of the model of your choice equipped with the optional features you are considering, the

"Build Yours" feature at lancecamper.com is a great resource. Because we're unfamiliar with your tow vehicle, Lance makes no warranties or representation – expressed or implied – as to performance or reliability of your tow vehicle with a Lance trailer. For professional guidance, always consult with your Factory Authorized Lance Dealer. They're trained in properly calculating proper matches between tow vehicles and trailers.

3,500 POUND TOW RATING

Models: 1475, 1575

5,000 POUND TOW RATING

Models: 1475, 1575, 1685, 1985, 1995
